Since she was born as a tadpole,
she already knew how to swim.

She grew up and became the first
Three-Eyed Frog.

Like all amphibians, she had very sensitive skin.

The water she lived in was very dirty and she had to wear a stripy swimsuit to go in the water.

Three-Eyed Frog kept on growing and learned how to jump.

Once on land, she discovered that the sky was always hidden behind a dark CLOUD.

She also saw that there were THINGS and she wondered what those THINGS were doing there.

Three-Eyed Frog
loved to be with her grandmother.

—This place used to be very different —her grandmother said—.
These THINGS weren't here before and more of us lived here.

Now nobody wanted to live there...

because every day more and more THINGS would show up.
New THINGS that nobody wanted anymore.

Three-Eyed Frog grew up in a polluted place.
She jumped up high to find out what was going on.
She soon discovered she wanted to change THINGS...

Will she manage on her own?

A story that gives us hope
that we can find solutions in common.
